Bio-Energetic Synchronization Technique (B.E.S.T.), developed by Dr. M.T. Morter, Jr., is a non-forceful, energy balancing, hands-on procedure used to help reestablish the full healing potential of the body. B.E.S.T. is widely used by health care practitioners all over the world who practice mind/body healing and recognize that the body is more than the sum of its parts.

The CcdA/CcdB Type II Toxin-antitoxin system is one example of the bacterial toxin-antitoxin (TA) systems that encode two proteins, one a potent inhibitor of cell proliferation (toxin) and the other its specific antidote (antitoxin). These systems preferentially guarantee growth of plasmid-carrying daughter cells in a bacterial population by killing newborn bacteria that have not inherited a ...

Florida's B.E.S.T. Standards promote Douglass's noble view of education. The implementation of these standards will encourage schools, districts, and educators to adopt and build a rich, deep, and meaningful curriculum that "uplifts the soul." It is important to note that these standards are only the framework.
