Human Sexuality And The Nursing

Many nurses believe that sexuality assessment, evaluation, and counseling is a part of their professional role, however, nurses do not necessarily integrate this awareness into their patient care. Discomfort, embarrassment, or strongly held attitudes about the nurse's role in discussing sexuality with patients can act as barriers to responding to these patient concerns.

Nursing attitudes and beliefs toward human sexuality ...

The collaborative initiative developed and piloted an instrument to measure nurses' attitudes and beliefs about human sexuality. Results of the pilot study suggest that what nurses believe patients expect from them, time availability, and confidence in one's ability to address issues related to human sexuality present significant barriers to incorporating sexuality assessment and counseling into nursing practice.

Human Sexuality and Implications for Nursing Intervention ...

Human sexuality and the nursing process 1988-07-30 00:00:00 Only too often, what is really required of nurses is to be able to impart information whilst instilling confidence, in fact, applying that all too rare a quality - common sense. We should not try to be amateur therapists but rather heed Alexander Pope's 'A little learning is a dang'rous thing.'

Human sexuality and the nursing process, Nursing Standard ...

Abstract. Sexuality is an important aspect of patient care, but research consistently demonstrates that nurses do not address sexuality unless the client asks specific questions. Review of research on sexuality-related practice suggests that nurses acknowledge their professional responsibility to address sexuality with clients, but may not feel comfortable doing so.

Nursing practice related to sexuality: A review and ...

Areas of expertise that the nurses need to develop which promote and maintain patient sexual health are knowledge of the subject matter, skill in assessing and interviewing. Nurses must also develop an awareness of beliefs, attitudes and values related to sexuality, and awareness of how these beliefs, attitudes, and values affect their practice.
