The ISO 9001 Requirements - To become ISO certified: a company or organization must submit several documents that report its internal processes, procedures and standards. These documents (or Quality Management System) determines that a company is able to provide quality products and services consistently.

What are the ISO 9001 requirements? (documents & records)

The ISO 9001 quality standard has a number of document requirements and specifically calls out 7.5.3 Control of Documented information. To understand what documents or a records are required (the new standard does not make a distinction) first let's clarify what are documents and records. What is Documented Information?

What Documented Information is Required for ISO 9001:2015

ISO 9001:2015 Annex A. It must be stressed that, according to ISO 9001:2015 clause 7.5.3 Control of documented information requirements, documents may be in any form or type of medium, and the definition of "document" in ISO 9000:2015 clause 3.8.5 gives the following examples: – paper

Guidance on the requirements for Documented ... - ISO

ISO 9001:2015 defines documented information as meaningful data that is required to be controlled and maintained by the organization and the medium on which it is contained. Notes to this definition indicate that documented information can refer to the Quality Management System (QMS) and its processes, documentation, and records.

ISO 9001:2015 document and record control: The new approach

Why ISO 9001 document controls are needed. Organizations that want to demonstrate conformity with the requirements of ISO for certification, registration, contractual obligations, or other reasons, need to provide evidence of an effective implementation of a quality management system (QMS).

ISO 9001 Document Control

ISO 9001 requires different types of information to be documented; however, not all information needs to be documented as separate documents. It is flexible, so that the organization to decide on the size of the documentation and the level of details documented. For example, small companies can include documented procedures in the QMS manual.

ISO 9001 QMS documentation - How to structure it

We recommend creating user-friendly ISO 9001 documentation by combining the different documentation requirements (i.e. procedures, quality policy, scope and process flowchart) as much as possible into a single comprehensive manual (ie, an "ISO 9001 QMS manual", "procedures manual" or "quality management manual", etc).

ISO 9001 Documentation Requirements | 9001 Council

In short, document control is: having a way to ensure that information remains relevant, up-to-date, accessible and aligned to the strategy. The standard (ISO 9001) does not handcuff organizations in dictating specific required procedures. Each organization is free to decide what documents need to be created and controlled.

Document Control Explained Simply - ISO Consultants

ISO 9001 sets out the criteria for a quality management system and is the only standard in the family that can be certified to (although this is not a requirement). It can be used by any organization, large or small, regardless of its field of activity.

ISO - ISO 9000 family — Quality management
