The History Of The University

The earliest Western institution that can be called a university was a famous medical school that arose at Salerno, Italy, in the 9th century and drew students from all over Europe. It remained merely a medical school, however. The first true university in the West was founded at Bologna late in the 11th century.

university | Definition, Origin, History, & Facts | Britannica

Sometimes, especially in former use, synonymous with college: see COLLEGE n. 4c. OED. "university" Institution of higher learning. Universities grew from the studia generalia of the 12th century, which provided education for priests and monks and were attended by students from all parts of Europe.

THE ORIGIN OF UNIVERSITIES - University of Texas at Austin

The word university is derived from the Latin universitas magistrorum et scholarium, which roughly means "community of teachers and scholars". The modern university system has roots in the European medieval university, which was created in Italy and evolved from cathedral schools for the clergy during the High Middle Ages.

University - Wikipedia

At a basic level, then, writing the history of universities is an exercise in uncovering potentially unpleasant truths. In place of celebration and mythology, historians can offer a more complicated and sometimes more troubling account.
