In order to inspire a learning culture, the organisations we spoke with recommended promoting learning from failure as well as success, advocating for employee freedom to challenge the status quo with new ideas, supporting and publicising innovation that springs from learning, and if possible, giving learners encouragement and a platform to collaborate with each other after training events have taken place.

Promoting a Learning Culture in Your Organisation

Organizational learning is the process of creating, retaining, and transferring knowledge within an organization. An organization improves over time as it gains experience. From this experience, it is able to create knowledge. This knowledge is broad, covering any topic that could better an organization.
